

The work environment prize

Guldhjälmen 2017

Arslan Sitar

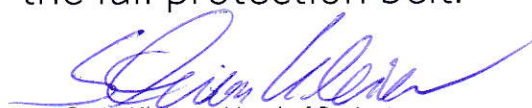

Ismet Sitar

Hasan Sitar

Pramit

The jury's motivation

The work environment prize Guldhjälmen 2017 goes to Arslan Sitar, Ismet Sitar och Hasan Sitar, Pramit. The team has solved the fall risk on the cut and cover in an innovative and efficient way. By tensioning wires between the pipes on the long sides, they have both a well-fitted railing and connecting capability to the fall protection belt.
